

SITHNEY COMMUNITY PRIMARY SCHOOL

Our School Offer for Disability and Special Educational Needs (DSEN)

Sithney School:

- puts children at the heart of the learning process
- gives children the opportunity to initiate learning experiences and follow lines of enquiry
- allows adults to use observation and assessment to plan further learning experiences, correct misconceptions, establish possible lines of development and identify next steps for learning
- develops the core learning skills of children by listening to their dialogue and then providing opportunities that will facilitate their learning further
- ensures all aspects of the curriculum (EYFS and NC) can be met through a play-based, stimulating and exploratory learning environment
- encourages children to be independent, self-motivated and reflective learners

As a Community Primary School with 'family' values and at the heart of everything we do, it is important for us to create a fully inclusive environment where each child can develop emotionally, socially and academically.

Disability and Special Educational Needs Coordinator: Helen Neil hneil@sithney.cornwall.sch.uk

Headteacher: Lucy Wandless head@sithney.cornwall.sch.uk

The levels of support and provision offered by Sithney School

Throughout their time at Sithney School pupils may receive different levels of support according to their educational needs. At Sithney, we endeavour to adapt to changes in need of individual pupils to ensure they progress in all aspects of their school life.

	Whole school approaches The universal offer to all children and young people.	Additional, targeted support and provision	Specialist, individualised support and provision
Listening to and responding to children and young people	The views and opinions of all students are valued. Pupils are listened to and feel valued within the school family. Pupils are respectful towards each other and are aware of the differing needs they may have. Pupils are involved with setting targets and how they will work towards them. Pupil opinions can be heard through: Pupil questionnaires Assemblies School Council Consultation (negotiation/explanation) – Part of the decision making process.	All DSEN pupils' voices are listened to in the same way as other pupils. Small focused groups are set up to encourage discussion, build confidence and guide how to form and voice their own opinions or views. SEN questionnaires. Pupils are involved with setting new targets.	Documentation is presented clearly so pupils can access independently or are individually supported by adults, enabling them to voice opinion. Student's views are an integral part of TAC meetings and SEN reviews/parent meetings.

	Whole school approaches The universal offer to all children and young people.	Additional, targeted support and provision	Specialist, individualised support and provision
Partnership with parents and carers	The School prides itself with an open door policy with all parents and carers. Teachers speak with parents regularly at the beginning and end of the day, as part of our open door policy. All parents are encouraged to attend parent/teacher consultation evenings. (1 each term) Annual reports are sent home at the end of the academic year. Parent questionnaires are used as a format to gauge parental views/opinions. These are responded to. Parents are consulted about changes to the routine/practice of the school. Parent/carers know exactly who to contact if they have any concerns. The website, enables parent/carers to understand more about what their child is learning. Weekly newsletter.	Booster sessions for Y6 are accessed after school, along with their parents. Maths booster sessions for Y6 maths are accessed within the Multi-Academy Trust and parents support transportation. Parents are invited to attend meetings regarding their child's Assess, Plan, Do, Review and encouraged to contribute where appropriate.	Teaching Assistants who provide individual support build close, working relationships with parents/carers. Parent/carers are supported in attending, and are actively involved in TAC meetings and reviews. Parent/carer's views are an integral part of TAC meetings and SEN reviews. Documentation is presented in a format that is easy to access by parents. Parents are encouraged to support school trips.

Texting service.	

	Whole school approaches. The universal offer to all children and young people	Additional, targeted support and provision	Specialist, individualised support and provision
The curriculum	The school follows the 2014 National Curriculum which is designed to ensure the inclusion of all students. All teachers are experienced in adapting lessons to ensure all pupils have access and are included. Whole School Topic approach – Focus changing termly. A range of activities are planned for, to interest and encourage all types of learners. Topic launches to create 'memorable' experiences in learning. Subject planning is created by the class teacher and monitored by the subject leaders.	Pen Fit to support handwriting and fine motor control. Dough gym (EYFS) Additional resources available for those with specific learning difficulties e.g. dyslexia. Visual timetables where needed. Interventions are analysed for impact and reports added to individual trackers. IPMs (Individual Provision Maps). And Assess, Plan, Do, Review documents. Writing and maths workshops accessed via the Multi-Academy	Pupils access the curriculum at their own ability level – supported and adapted for the age range they are working in. 1-to-1 support is provided to enable access to curriculum. Specialist support for pupils who need support with maths. Additional resources are used to engage learners e.g. practical/visual to support understanding.
	Robust on-going assessment of pupil progress and attainment. Whole school approach to guided reading and phonics/spelling sessions.	Trust.	

		Т.	
	Whole school behaviour and reward system. Displayed and used in each class, celebrating attitude to learning and successes.

Teaching and learning	Planning is differentiated within each class to ensure progress at all ability levels. Learning walls to support and enabling pupils in learning. Objectives begin with 'How to' and are referred to within the lesson. Pupils are encouraged and supported to be responsible, independent learners. Assessments inform future planning. Different groupings are identified for each class and adults support appropriately. Teaching assistants/class teachers work with small groups to: - ensure understanding - facilitate learning - foster independence - keep students on task. A whole school Marking Policy is adhered to	IPMs Small intervention groups Class teachers and teaching assistants share information and lesson plans to ensure that students with SEN have targeted support and provision. Independent student learning is supported by the use of technology, for example: - computers - i-pads - Easyspeak microphones - talking tins - talking pegs	Personalised and highly differentiated work is provided enabling independent learning. One-to-one support is in place for students who need more intensive support. Separate working spaces when required (where possible within the classroom setting). Sensory equipment used to provided learning breaks. Occupational therapy exercises carried out on a daily basis.

Answers to Frequently asked Questions

How does your school know if children need extra help?

Teachers are continually monitoring and assessing your child's progress – academically, physically, behaviourally and emotionally. Through this rigorous assessment process, teachers identify gaps in children's learning and plan for pupils to receive extra support in the classroom. This may be through differentiated activities or additional adult support. Teachers talk regularly to parents and request their support in the home environment to try and overcome barriers to learning.

What should I do if I think my child may have special educational needs?

It is important that you communicate effectively with the school and discuss your concerns. Talk to your child's class teacher in the first instance, who will inform the SENCo of your concern and take appropriate action where necessary. This may be an observation in the first instance and ensuring resources and differentiation is in place to support your child. An Individual Provision Map ad an Assess, Plan, Do, review document may then be created to support your child's learning in school. This will be regularly reviewed and discussed with the child and the parents each term. In some instances, the SENCo may request advice, with your permission, from other external agencies who may feel it appropriate to assess your child's needs.

Who is responsible for the progress and success of my child in school?

The Governors of the school are ultimately responsible for ensuring your children are making good progress. The Headteacher works with the staff to ensure pupil targets are being met and that children are being challenged appropriately. The Senior Leadership Team analyse data and monitor teaching and learning to ensure teachers are meeting the needs of the pupils.

How will the curriculum be matched to my child's needs?

The school works hard to provide a broad and balanced curriculum which is topic based throughout the school. In all subjects planning is differentiated to match the learning needs of the pupils, support and challenge being provided. We incorporate different styles of teaching and learning to accommodate all children and engage them in the learning. We also host 'topic days' which allow the children to immerse themselves in the learning.

How will school staff support my child?

At Sithney we strongly believe in promoting independence, and through our support we endeavour to build confidence in your child's learning. Support may be through differentiated activities, working with a learning buddy, adult support or written step by step instructions so your child knows what to do. There are also intervention groups where children may receive additional support for spelling, handwriting or social skills, for example. We also utilise ICT by providing maths and English programs the children have access to. Pupils are aware that they can talk to any member of staff about anything.

How will I know how my child is doing and how will you help me to support my child's learning?

Staff regularly talk with parents after school so there is opportunity for parents to request a meeting to discuss progress if they wish to, in line with our open door policy. Where a teacher feels there is a concern, parents are asked to come in and discuss the issue. Advice on how to provide extra support at home is given. Pupils are given homework each week and we ask parents to ensure this is completed to a high standard. Children in Y6 receive extra booster sessions once a week after school to develop understanding and confidence with SATs. Parents are encouraged, where possible to attend these sessions. In the past, where requests for how to help with, for example, phonics and reading have been made, we have set up meeting to support parents in understanding what we do in school and how they can help at home.

Each term there is a formal parent/teacher meeting to discuss your child's progress and attainment, and at the end of the academic year a written report is sent home.

What support will there be for my child's overall wellbeing?

Children's' well-being and emotional health is recognised at Sithney as being an important aspect of their academic progress. We endeavour to provide personalised learning journeys where children can succeed at their own ability level.

We celebrate every child's abilities through the use of multi-intelligence badges which are awarded when we recognise a strength e.g. logical

thinker, community involvement, musical talent, active star... All children are included in this reward system. Each week we hold an assembly where achievements from both inside and outside school are celebrated.

How do I know that my child is safe in school?

In school we have 2 members of staff and 1 school governor who have received tier 3 Safeguarding training and all staff have received tier 1 training. Staff follow procedures outlined in the safeguarding policy and the designated governor is responsible for ensuring statutory guidance is met. There are regular fire alarm checks and practice drills so pupils know what to do in an emergency. There are always members of staff who have undergone the 'First Aid in the Workplace' training. The school keeps a record of who has received the training and when they qualified, to ensure training is always current.

Sithney School carries out risk assessments for all school trips: these are monitored by the Senior Leadership team. Teachers are responsible for ensuring risk assessments are carried out and they follow the school trip 'planning procedure' to ensure all aspects of the school trip have been addressed. Water related trips and camps are approved by the County Outdoor Education team.

The Health and Safety Governor, together with the secretary carry out regular health and safe assessments of the school site.

The school holds personal details of all children – this is kept in line with GDPR. This information contains contact details for parents/carers and the next of kin. Parents are asked to inform the school if there are any changes. This ensures parents/carers can be contacted at anytime of the school day, allowing us to notify them of changes to the school day e.g. school closure due to severe weather.

The front door is open during the day to allow access to the reception area but an inner 'locked door' prevents people from accessing the school. The gate to the playground is padlocked. At playtimes, 3 members of staff are on duty with the pupils.

All staff have identity badges and visitors and governors are issued badges when in school.

What SEN training have the staff at school had or are having?

The SEN Co-ordinator has been awarded The National Award for Special Educational Needs Co-ordination. Teachers and Teaching Assistants attend relevant courses to support the children they are working with. This information is then shared with the rest of the staff at staff meetings.

How accessible is the school environment?

The entire school is wheelchair accessible. See the Accessibility Plan

How are the school's resources allocated and matched to children's special educational needs?

We take a whole school approach to providing the resources every child needs for their learning, regardless of their ability. Each class is supported by a Teaching Assistant and extra interventions, led by experienced Teaching Assistants, are provided for small groups of pupils. Classroom resources are shared and additional resources are purchased where necessary to enhance the learning.

How is the decision made about what type and how much support my child will receive?

Decisions about the support each child receives are based on the school's in-depth knowledge of the child. Lengthy discussions between relevant staff members take place and the child's progress is monitored. The support may change as the needs of the child change. Staff listen to parent/carer views and advice from outside agencies.

What should I do if I feel that the School Offer is not being delivered or is not meeting my child's needs?

Parents/carers who believe their child's needs are not being met are asked to:

- Meet with the class teacher to raise your concerns.
- Talk with the SENCo to address the issue or concern.
- Address the issue or concern with the Headteacher appointments can be made.

Where parents/carers feel the issue or concern has not been addressed, they are asked to contact the Chair of Governors. The school has a complaints policy which can be found on the school website.

How is your School Offer reviewed?

The School Offer will be formally reviewed by the Governing Board in consultation with the Senior Leadership Team, at least once every three years. However, the Senior Leadership Team will monitor the School Offer throughout the academic year and amend with appropriate changes, in consultation with the Governing Board.
